- > training in the use of alternative modes of transportation
- > identification and connection to resources to acquire goods and services

who we are

Independence Drive is a University of Florida affiliated program designed to support safe mobility among older drivers in North and Central Florida. The National Older Driver Research & Training Center at the University of Florida developed Independence Drive to increase the safe mobility and independence of older citizens and to study older driver safety issues. Independence Drive serves drivers in the Gainesville and Ocala areas.

community mobility . . .
the opportunity to live life to the fullest

other services

presentations

In addition to our community mobility services, educational programming is provided to community members, agencies, and healthcare providers. Program content focuses on knowledge and awareness of mobility issues, driver-vehicle fit, the complexity of driving, driving assessment, remediation, referral, and mobility options.
